RIDE THE ELEMENTS

WHY GOXTREME ACTION CAMS?

Whether it is your first time ride on your skateboard or whether you are an outdoor Pro, by choosing GoXtreme® Action Cams you will find the right camera that suits your needs and budget. Our new generation of action cams offer outstanding features and cutting edge technology such as 4K Ultra HD, 60 meter waterproof housings and double lens 360° panorama for virtual reality. Anything from HD starter cams up to 4K models, all come with the appropriate accessories to get you started right away – no delay!

With over 15 years of expertise in digital camera, we at EasyPix® believe that it takes more than a few models to match all the different needs that outdoor sports demand. Tailored to the individual requirements, you can be confident that our range meets your expectations in regards to quality AND budget.

So why not spend that extra money on your next adventure?

COME ALONG WITH US AND RIDE THE ELEMENTS ...

ULTIMATE PERFORMANCE UP TO 4K

GoXtreme Action Cams are designed to offer optimal performance. Whether it's true 4K video, sharp images, stereo audio recording, we choose only the best components like high efficiency Ambarella chipsets and Sony high speed sensors.

ULTRA WIDE VIEW

When it comes to views, GoXtreme has it covered... from 45° to 170° ultra wide angle the wow factor of full panorama 360° and everything in between. FullDome360° delivers a complete 360° photo and video experience. View the world around you while interacting with your photos or video on your smart device or jump right into your memories using a VR (Virtual Reality) viewer.

IMPRESSIVE IMAGES

If a picture speaks a thousand words then you'll want that picture to speak clearly..! Utilising the latest low light and Sony image sensors GoXtreme Action Cams deliver vibrant, life-like still images at resolutions of up to 16 megapixels. Depending on the model, built in WiFi gives you additional convenience.

DISPLAYS & WATERPROOF CASES

All GoXtreme Action Cams feature a waterproof case and a large and convenient 2" display, perfect for setting up your shots, viewing or changing your camera settings and offering convenient playback and review of your videos and photos.

MOUNTS & ACCESSORIES INCLUDED - NO EXTRA COSTS

At GoXtreme we understand the value of giving you more and that's why every GoXtreme Action Cam includes a great selection of essential mounts and accessories right out of the box.

SLOW MOTION, BURST, TIME LAPSE

Slow motion: Depending on the model chosen GoXtreme Action Cams allow you to choose slow motion mode to slow down the fury of your wildest adventures, to view them at a pace that shows just how much of an action hero you really are.

Burst mode: Once activated burst mode captures several photos with

a single press of the shutter which in turn delivers multiple photos where you would normally record just one.

Time Lapse mode: Lets get you creative by giving you the option of capturing photos automatically at set time intervals which when played back as a video allows you to view an extended time frame.

PROFESSIONAL AUDIO PERFORMANCE

Developed by our R&D team to offer specific on-board stereo recording GoXtreme Stage is designed to enhance any talent in stereo. Thanks to two built in stereo mics GoXtreme Stage records high quality stereo audio ensuring your performance is captured just as you hear it while the mic settings allow you to fine tune.

WiFi CONNECTION

Preview, Sharing & Remote Control

At the touch of a button the built in WiFi allows you to connect your camera to your smartphone or tablet using the companion app.

The app - a free download - turns your phone or tablet into a live view remote and offers full control of the camera functions and settings.

Simply download your files directly from your camera to your device to view or share via e-mail or on your favourite social media platforms.

GOXTREME® 360° PANORAMA

AND VIRTUAL REALITY CAMERAS

Featuring two 220° wide angle lenses, a simple, user interface and time lapse mode, the Full Dome 360° captures fully immersive 360° photos and high quality definition video at the touch of a button.

WiFi allows users to be connected wirelessly to their smartphone or tablet using the free companion app to access a fully interactive 360° 'live view'.

More than simply offering a live view the free app gives access to camera settings while also enabling users to download their favourite 360° photos and videos.

These can be full sphere, 360° panoramic or side by side views for use with any standard VR goggles, delivering a truly immersive virtual reality experience.
